Dear Will,

My wife and I really appreciate the exceptional job you did to design and complete three levels of stone work with steps in our yard.

Your choice of Pa. fieldstone was great as it matches our adjacent parkland. You have exceptional conceptual skills to know what looks great and is best for your clients. Your men worked very hard and completed the job in a short period of time. We always appreciated you stopping by to see how everything was progressing.

You are welcome to add our names to your reference list of clients who are very pleased with your professional work. Best wishes.

Bob and Judy Rexrode
