July 16, 2004

Dear Mr. Weiler,

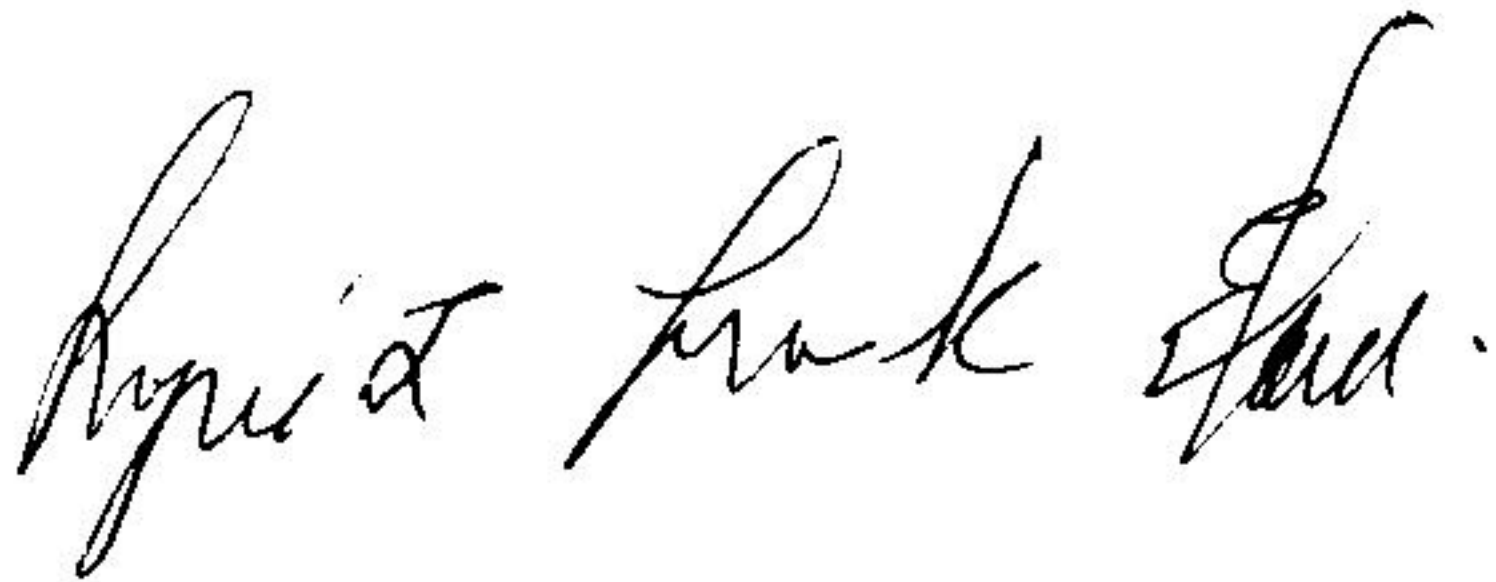

In the past thirty years we have built three new houses in Northern Virginia and Annapolis, Maryland, and have moved three times. We have dealt with hundreds of contractors and subcontractors including plumbers, electricians, masons, carpenters, and finally, landscapers.

I can strongly say that Weilers Lawn and Landscape has been the best experience that we hoped to encounter. Mr. Weiler, Huy, and all the workers have been professional and hard working, with superior design skills, and the end result has been extremely gratifying.

In the front yard we have the most beautiful shrubs, trees, and flowers. In the back yard we have one of the most elegant and elaborate pond and water falls that compliment the swimming pool and landscaping. The landscaping, very fine grading, and sod placement have all made Suzie and I very happy.

I must also say the charges for this project have been extremely fair (compared to other projects in the past with other landscape companies) and I think this company deserves every dollar they make. The employees work extremely hard and are always punctual—again this experience has been the most wonderful one and we thought that we may share this with other people through this letter of recommendation.

Sincerely,

A handwritten signature in black ink that reads "Dr. Frank Eslami". The signature is written in a cursive, flowing style with a large initial 'D'.
